

Media Partners E-Learning Site

A dynamic new look in online learning!

The Training Site

Whether simply streaming a video or taking advantage of a full E-Learning Course, our award winning media challenges learners with real world dilemmas and then offers practical solutions that they can apply immediately. Assessments, movie quality videos, post tests, policy agreements, and more all combine to challenge learners to think and rethink what they already know and what they have just learned.

Your trainees will enjoy the flexibility of learning at work, at home, on the road or in their favorite Starbucks. Each trainee is given three – 24 hour training sessions to complete each course. A handy "resume" feature allows them to easily pick up where they left off.

The screenshot shows a video player with a woman speaking. To the right, there are 'Learning Points' for a video titled '6. IF WHAT I SAY OFFENDS YOU...'. The points include: 'Swearing, bathroom humor, things you'd say in your living room, may be offensive to some at work.', 'Just act like ladies and gentlemen.', and 'Don't talk about sex, politics or religion at work.' Below the video is a 'Chapters' section with thumbnails for '6. If What I Say Offends You...', '7. What about sexual attraction at work?', '8. Live And Let Live', '9. Using Please And Thank You At Work...', and '10. Wrap Up'. A 'WHAT HAVE YOU LEARNED?' button is also visible.

The Manager's Admin Site

The Manager's Admin Site offers you a high level of customization and control.

- Choose a multi-layered training course or simply stream a video with the click of your mouse.
- Edit, add or delete any question or key concept to fit your company's culture or specific training requirements.
- Train different groups with different courses using our training groups feature.
- Personalize the site by adding your company's logo.
- View online summary reports of employee's training experience or download a detailed report in Excel.
- Add more users or courses directly from your Manager's Admin Site.

Technical Specifications

Our E-Learning site is easy to use and administer, with only a few basic technical requirements.
